

**Black-and-White Maps of Private Properties from \$90**

**Colour Maps of Private Properties from \$110**

You will receive the following:

- One digital file of the map of your property
- One printed map of your property
- Information sheet with numeracy, literacy and artistic activities for children and adults
- The following options are available at additional cost:
  - Mini-O Controls (\$1 per control)
  - Mini-O Courses (\$1 per control drawn on the map)
  - Contours (\$50)
- Please note, we will not give or show a map of your property to anyone else
- If you vacate the property you may give digital files of the map to the new occupants
- If the map is of a rental property, Merry Maps Education will make the map on the understanding that the customer is authorized to make such a purpose, i.e. there is an agreement between the tenant and the owner regarding the making of the map

Prices vary from \$90 to \$320 depending on a geographic location, size and complexity of the property to be mapped. For example, a black-and-white map of 500m<sup>2</sup> urban backyard with a trampoline, two sheds, four trees and two garden beds in eastern suburbs of Melbourne (within the distance of 20-km by road from Ringwood train station) would cost \$90. A colour map of 3-ha property with many fences, scattered trees and sheds near Wallan would cost \$320.

It will take us between 2 and 6 weeks to make a map of a property, in most cases two site visits will be required, one for the initial mapping and a second visit for checking the map.

If you would like to get a quote, please send an email to us providing the address of the property to be mapped.
